

HOSHIZAKI AMERICA, INC.

SERVICE BULLETIN

SB17-0004R1

Issued: March 6, 2017

Revised September 27, 2017

Subject: Updated Use of Franke EcO3Ice Sanitation System & Part Numbers

Hoshizaki America has reviewed the Franke EcO3Ice Sanitation System. The EcO3Ice System is installed external to the ice maker and directly between the filtration system and the ice machine water inlet.

When properly applied, findings show that this sanitation system may effectively reduce the frequency of cleanings for Hoshizaki ice-makers.

With proper application, size, and installation, use of this system will not affect the life, performance, or standard warranty of Hoshizaki ice-makers.¹

Please refer to the model selection matrix² on the manufacturer's website for proper application, sizing, operation/installation and warranty of this system.

Description	Accessory Part Number:	Water Flow Rate Capacity	Water Line Connection
EcO3Ice Accessory Kit (Head, Cartridge & Instructions)	HS-5282	< 0.34 gpm (< 1.3 lpm)	3/8" OD push/pull fitting
	HS-5283	0.34 gpm to 1.3 gpm (1.3 lpm to 4.9 lpm)	1/2" OD push/pull fitting
	HS-5284	1.3 gpm to 4.2 gpm (4.9 lpm to 16 lpm)	
Replacement Cartridge	HS-5285	All models	All EcO3Ice Units

Please Note:

1. At the time of this bulletin release, this system has not completed a review for use with Hoshizaki DKM-series & DCM-series products
2. Proper sizing includes confirmation that the EcO3Ice unit shall supply the correct water flow rate to the ice machine. The correct flow rate is according to ice machine model and revision.
