### **Subject: Under counter thermostat 3A6755-01 through -08 NLA**

The 3A6755-XX series of thermostats will be no longer available once the current inventory has been depleted. This thermostat has been replaced by a new electronic control and thermistors.

There were multiple versions of the 3A6755-XX thermostat used and some of these were used across different models. By using the new electronic control, the number of parts has been reduced to 3 part numbers.

The correct controller will now be selected by the type of model being serviced.
