Subject: Individually packaged door kits for the C-80, C-101 and AM-50 series

Hoshizaki service parts has introduced the following individually boxed door assemblies for the C-80, C-101, and AM-50 series units. These assemblies include handles, labels, and door gaskets.

Beginning in 2024 there were construction changes to the door assemblies. These include new magnetic gaskets and interior panels. The revised kits also include new hinges which should be replaced when installing the new door.

See the chart below for the new assembly numbers that will be implemented, as stock of the original assemblies are depleted.
