### **Subject: SA0144 Compressor kit will be NLA**

When inventory levels are depleted the SA0144 compressor kit will no longer be available.

For future orders it will be necessary to order the individual components, as called out in the specific model's parts list. We will also be removing subs from our system that were previously directed to this kit.

Currently this kit includes the following part numbers that may all be ordered individual as needed.

Description	Part number	Quantity
Compressor	4A4376-02	1
Start Capacitor	3A0076-12	1
Run Capacitor	3A2005-06	1
Starter	4A1107-13	1
Drier	4A2666-01	1

As always, we recommend the replacement of start components and drier anytime a compressor is replaced. Please see each model's individual parts list for correct part numbers.
