Subject: Water pumps S-0730 and S-0731 part number change

Beginning in July 2025, the water pumps currently identified as **S-0730** and **S-0731** will be updated to **SP-0730** and **SP-0731** pump kits.

Reason for the Change:

1. Standardization of Service Parts:

This update will retire the legacy part numbers and align these components with our standard service part format.

2. Enhanced Kit Contents:

Each new pump kit will now include a capacitor, installation instructions, and a conversion label. These additions will improve the compatibility of the kits across multiple applications

If you have any questions concerning this change, please contact the Technical Support Department at tech-support@hoshizaki.com or 1-800-233-1940.
