March 14, 1994

SUBJECT: COATED REMOTE CONDENSER COILS

During the latter part of 1993, Hoshizaki America began to manufacture URC condensers utilizing corrosion resistant coated condenser coils. The coating is black in color and protects against corrosive salts, acids, etc.

The serial numbers affected are as follows:

	<u>Serial No.</u>
URC-6E	C20752 ---->
URC-12E	C12947 ---->
URC-20C	C11806 ---->
URC-24C	C10315 ---->

The new coils are interchangeable with the old coils. If a remote coil which is not coated fails, order the new part number for a replacement.

	<u>Old No.</u>	<u>New No.</u>
URC-6 C/E	216519-01	216519-02
URC-12 C/E	104777-01	104777-02
URC-20 C/E	104918-01	104918-02
URC-24C	105360-01	105360-02
