Subject: DCM-240BAE Agitation Timer

A periodic agitation timer kit has been developed to improve ice dispensing on DCM-240 cubelet dispenser. Agitation is necessary if the DCM-240 is idle for long periods of time without dispensing ice. The timer will operate the gear motor for 2 seconds of agitation every 90 minutes.

The Periodic Agitation Timer Kit is part number HS-0113. It contains the following items:

Timer	# 4A1137-01
Wiring label	# 3A0966-01
Instruction sheet.	# 1A0213-01

Detailed wiring instructions for connection points are provided in the instruction sheet. The three terminals on the timer will be wired as follows:
