

UF48B-D2

Undercounter 48" Freezer
with One Door and Two Drawers

W x D x H

48" x 30" x 33.75"
*with 4" casters

Dimensions / Capacity

Interior Storage Capacity (CF) (AHAM)	12 ft ³
Overall Width x Depth (including 1" bumper)	48" x 31"
Height (including 4" casters)	33.75"
Door Opening Width x Height	19.5" x 23"
Drawer Opening Width x Height	19.5" x 9.25"
Depth with Door Fully Open (including 1" bumper)	52.5
Depth with Drawer Fully Open (including 1" bumper)	52"
Adjustable shelves / Shelf Dimensions (W x D)	1 / 21.5" x 16"
Crated Weight	295 lbs.
Crated Length x Width x Height	52.5" x 34" x 36.5"
Electrical / Refrigeration	
Voltage	115/60/1
HACR Breaker	15.0 Amps
Electrical Connection (NEMA)	5-15P
Voltage Range	104-126
Ambient Temp. Range	45° to 100°F
Control Setpoint Range	-10° to 10°F
Amperage	4
Energy Consumption (kWh/day) @ASHRAE	3.6
Heat Rejection (BTU/Hr.) @NSF	756
Approx. Nominal Compre. BTU/HR (HP)	1426(1/3HP)
Refrigerant / Charge Amount (oz)	R290 (2.6 oz)

Options

- 2" Casters (HS-5037, set of 4)
- 6" Casters (HS-5036, set of 4)
- Foot pedal kit (HS-5555, Lft hinge)
- Foot pedal kit (HS-5556, Rt hinge)
- Door locks (factory request)
- Reversible door (field reversible)
- Stainless steel back panel (factory request)
- Overshelves (HS-5173 single)
- Overshelves (HS-5164 double)
- Addtl. Epoxy Shelves (HS-5059, 1pk)
- Addtl. Stainless Shelves (HS-5117,1pk)
- Drawer divider bar (HS-4007, Vertical)
- Drawer divider bar (HS-5432, Horizontal)

Seven year warranty
on labor, parts, and
compressor. Valid in
United States, Canada,
Puerto Rico and U.S.
Territories.

Item # 13744

Item #: _____
 Project: _____
 Qty: _____
 AIA#: _____

Features

- Engineered to maintain NSF-7 temperatures in 100°F ambient.
- Stainless steel exterior front, sides, and top with stainless steel interior sides, back, and floor
- Front breathing air flow design
 - Environmentally friendly R290 hydrocarbon refrigerant
 - Cabinet, doors and drawers are insulated with 2" CFC free, foamed in place polyurethane
 - Exclusive "stepped" door design to protect door gasket
 - Extruded aluminum flush mount door handle
 - Field reversible doors
 - Spring assisted self-closing doors with stay open feature
 - Drawer slides are constructed of 16 gauge stainless steel with acetal rollers
 - Drawer frames are formed of 14 gauge stainless steel and securely fastened in the cabinet
 - Top and bottom drawers will accommodate (1) 1/2 size pan & (1) 1/3 size pan. In addition, top drawer will also accommodate (1) 1/4 size pan and (1) 1/6 size pan. Alternate pan orientation (top drawers only) provides (1) full size pan positioned longways front to back and (3) 1/9 size pans
 - Top and bottom drawers allow for 6" deep pans
 - Magnetic door/drawer gasket is easily removable for cleaning
 - Hot gas condensate removal
 - E-coated evaporator coil
 - One epoxy coated shelf per door section is standard
 - Anodized aluminum shelf supports adjustable in 1/2" increments
 - Standard with 4" casters (two with brakes)
 - 10 ft. cord and plug

If GFCI is required, a GFCI breaker MUST be used in lieu of GFCI receptacle

Hoshizaki reserves the right to change specifications without notice.

PLAN VIEW

Cabinet Construction

The exterior cabinet top, front, and sides, are constructed of high quality stainless steel. The exterior back and bottom are constructed of coated steel. The cabinet interior features stainless steel back, sides, and floor with a stainless steel top. One heavy duty epoxy coated shelf per section is standard. Mounted on anodized aluminum pilasters the shelves are adjustable in $\frac{1}{2}$ " increments. Cabinet walls are insulated with 2" CFC free, foamed in place polyurethane. 4" polyolefin, stem casters (two with brakes) are standard.

Drawer Construction

Drawer fronts are constructed of high grade stainless steel inside and out and drawers are insulated with 2" free foamed in place polyurethane. The bottom drawers will accommodate 6" deep pans. Full size pans in the top drawer can be oriented longways from front to back. The top drawer will accommodate 6" deep pans with either orientation. The top drawer will also accommodate (1) $\frac{1}{2}$ size pan & (1) $\frac{1}{3}$ size pan 6" deep at the front of the drawer opening and provide capacity for (1) $\frac{1}{4}$ size pan and (1) $\frac{1}{6}$ size pan 6" deep in the rear of the drawer. HS-5432 is recommended for this configuration. Drawer frames are formed of 14 gauge stainless steel and securely fastened in the cabinet. The drawer slides are 14 gauge stainless steel with acetal rollers to prevent metal to metal contact between the drawer slides and reduce wear. The drawer slides have a dynamic load capacity of 250 lbs. and have been life tested (fully loaded) three hundred thousand openings and closings without showing significant wear. The flush mount handles are constructed of extruded aluminum. Snap-in magnetic drawer gaskets are durable and easily removed for cleaning.

Door Construction

Doors are constructed of high grade stainless steel exterior with an ABS interior liner and are insulated with 2" CFC free, foamed in place polyurethane. Hoshizaki's exclusive "stepped" design protects the gasket while product is removed from the cabinet. Doors are provided with a one piece, extruded aluminum, flush mount handle. Spring assisted self-closing doors are equipped with a stay open feature past 90 degrees. Snap-in magnetic door gaskets are durable and easily removed for cleaning. Field reversible door hinging is standard.

Refrigeration System

The high efficiency refrigeration system is self-contained with an E-coated evaporator for extended life. Condensate removal is accomplished with an energy efficient non-electric evaporation system. A capillary tube controls the flow of environmentally friendly R290 refrigerant through the evaporator. Unit uses a heated, time initiated defrost to eliminate any ice on the evaporator coil. 115 volt units are equipped with a ten foot cord and plug (20.0 amps or less).
